

“Better Building in Changing Times”

PRESS RELEASE

As architects, builders, and product manufacturers we are always subject to many forces and influences. Economic cycles, architectural design trends, environmental concerns, codes and regulations, technology advances, education of new professionals, and current events all shape our industry and the buildings that we make. Are we getting better at what we do?

Change is the keyword that links us to the future. New emphases on energy efficiency, new design and coordination tools in building information modeling, new construction products that reduce waste and improve the indoor environment: all of these and more come to our attention every day and have the potential to make us better at what we do.

The 2009 Annual Metro New York CSI Chapter Trade Show and Education Day will explore the ways in which you can contribute to better building. Come and learn with us, share your knowledge with us, and interact with others who share your quest for doing a better job of designing and constructing buildings.

When: Wednesday, September 9, 2009

Seminars: 9:00AM to 5:00PM

Trade Show: 9:00AM to 5:00PM

Location: AIA New York, 536 LaGuardia Place, New York, NY

No Entry or Seminar Fees

Includes Lunch

AIA/CES HSW and CSI CEN Learning Units (Choose from 5 Seminars though out the day)

Come see the AIA New York Chapter's 9/11 Display
